Steels: Processing, Structure, And Performance, Second Edition
Synopsis

In the Second Edition of this best-selling book, new information and references are integrated into chapters. Emphasis is still on processing, alloying, microstructure, deformation, fracture and properties of major steel types ranging from low-carbon sheet steels, pearlitic rail and wire steels, to quench and tempered medium- and high-carbon martensitic steels. Microstructural aspects of steelmaking, hardenability, tempering, surface hardening, and embrittlement phenomena are updated, and chapters on stainless and tool steels remain in the Second edition. The work is intended to be tutorial and is an essential state-of-the-art reference for anyone that makes, uses, studies and designs with steel.

Book Information

Hardcover: 704 pages
Publisher: ASM International; Second edition (March 9, 2015)
Language: English
ISBN-10: 162708083X
Product Dimensions: 9 x 11 inches
Shipping Weight: 3 pounds (View shipping rates and policies)
Average Customer Review: Be the first to review this item
Best Sellers Rank: #220,457 in Books (See Top 100 in Books) #39 in Engineering & Transportation > Engineering > Materials & Material Science > Metallurgy #42604 in Books > Textbooks
