Customer Reviews

This book was a compilation of little tidbits of very basic information causing it to read more like paragraphs grabbed from magazine articles. And seriously, not all mature women travel in circles of publishers, entrepreneurs, models and such. I've enjoyed her previous books, however, after this disappointment, I will be reluctant to purchase any more of her books.

I'm always looking and finding books for women over the age of 50.....as I want to stay on course, look up-to-date and continue to age gracefully! I enjoyed this book. And loved how the author

incorporated input from so many of her friends. Realistic challenges, goals, dreams....how nice to have their in-put on so many subjects that will present themselves to us as we age. I continue to go back and read sections in the book again and again. I have always liked Lois Joy Johnson's books...and I'm happy to say this one is another good one to add to the collection!

Fun read and encouraging to anyone who wants to embrace their life at any age

I have recently turned 50, and this book really hit home. With the help of this book, I can age BEAUTIFULLY!

Good book!
