I have been diagnosed with osteoporosis so severe that the test score fell below the chart of test scores shown graphically. That's not a good thing. My health insurance provider refused to cover the extremely expensive prescription product my Doctor prescribed. I'd prefer natural health remedies anyway. So I have begun implementing natural means to reverse the condition with concepts presented within this book and also found in the internet. Soon my Doctor will test my progress to see if these natural cures are working and just how fast.

Very useful and clearly written information. Even though the book is from a couple of decades ago, I believe the information is still valid and currently helpful.

Thought provoking and a good resource.
