Schaum's Outline Of Basic Mathematics With Applications To Science And Technology, 2ed (Schaum's Outlines)

Synopsis

Confusing Textbooks? Missed Lectures? Not Enough Time? Fortunately for you, there's Schaum's Outlines. More than 40 million students have trusted Schaum's to help them succeed in the classroom and on exams. Schaum's is the key to faster learning and higher grades in every subject. Each Outline presents all the essential course information in an easy-to-follow, topic-by-topic format. You also get hundreds of examples, solved problems, and practice exercises to test your skills. This Schaum's Outline gives you Practice problems with full explanations that reinforce knowledge Coverage of the most up-to-date developments in your course field In-depth review of practices and applications Fully compatible with your classroom text, Schaum's highlights all the important facts you need to know. Use Schaum's to shorten your study time-and get your best test scores! Schaum's Outlines-Problem Solved.

Book Information

Series: Schaum's Outlines

Paperback: 504 pages

Publisher: McGraw-Hill Education; 2 edition (June 10, 2009)

Language: English

ISBN-10: 0071611592

ISBN-13: 978-0071611596

Product Dimensions: 8 x 1 x 11 inches

Shipping Weight: 1.7 pounds (View shipping rates and policies)

Average Customer Review: 4.3 out of 5 stars [See all reviews](#) (12 customer reviews)

Best Sellers Rank: #598,036 in Books (See Top 100 in Books) #96 in [Books > Education & Teaching > Schools & Teaching > Curriculum & Lesson Plans > STEM Education](#) #733 in [Books > Education & Teaching > Studying & Workbooks > Study Skills](#) #2361 in [Books > Education & Teaching > Studying & Workbooks > Study Guides](#)

Customer Reviews

I purchased this book to brush up on my math skills and to keep my mind active. It is a perfect match for what I want to accomplish. You are never too old to keep learning. It is an excellent source. You get a lot of information and examples. It is a good sized workbook at a great price. I recommend purchasing this book.

In the school systems today, some students are frustrated because their learning style is not the

same as the methods the teachers use to instruct. These students may lose confidence in their own ability as a result. The Schaum's Outline assists parents in filling the gap and allowing the student to move forward with confidence. Event though the subject matter is difficult, learning it is still an obtainable goal.

very good book,very thorough, touches on pretty much everthing the average person would probably ever need to know, and then some

I had an outdated 1979 copy of this. The fact that they have an updated 2013 version says quite a lot. Works well for practice problems and it was exactly what I needed for a basic math review class for Chemists.

Good presentation, but after some frustration solving a few problems, I found that the errors are actually in the book and not my analysis.

Came fast, satisfied. Thank you
