# Law School Ninja

## Synopsis

Fear Law School No More. It never fails. You get into law school, and there is momentary joy: "I'm going to law school." • Won't mom and dad be proud. The problem is, the joy is just that: momentary. Then it happens. The fear sets in. "I'm going to Law School." • All the mythology about the first year of law school, all the uncertainty about how to approach it, all the psycho-nonsense the whole legal world seems committed to imposing on you, it all sets in. And so most of us go into law school totally bewildered, unsure of our footing, more spooked than Scooby Doo. This book screams into the darkness: No more! You can get a lot of advice from a lot of places about how to do law school. And it will all be the same conventional wisdom. The conventional wisdom is fine, if all you want to do is survive law school. The problem is, however, the conventional wisdom will lead you into the same place as everyone else following it: the big middle of the class. And ending up in the big middle of the class won't get you the job you want. Law School Ninja will tell you how to get on the right side of the curve. The book rejects most of the conventional wisdom and provides a specific strategy for mastering law school. You will find out what really matters in your first year of law school and what doesn't. You will learn why most of daily class preparation is a total waste of time. You will learn the smart way to outline classes. Most of all, you will have a killer exam preparation strategy that will make you the best prepared student that sits down at any of your exams. Most importantly, you will have a plan in place for law school and the confidence to not only survive law school, but to actually enjoy it. Law School Ninja has just been released. ## Customer Reviews

Very, very short for the price. I suppose law students are fleeced no matter which books they buy. Gives good advice, but none that one can't find on the Internet fairly easily.

Are you a 1L or incoming 1L? Read this book and save yourself loads of stress and time. Your exam grades will thank you.

It was a great book. If you are entering to law school it is a must to read the book!

Same information on his website. This book is just another in a long line of books meant at fleecing the dumbest population of grad students in America, Law Students. So desperate to get ahead, we buy anything that could give us an advantage. This book does not.

This is a short book and a really easy read. If you're a One L or if you're thinking about law school, there's really no reason not to read this book. If anything, it provides the most concrete, down to earth, kick in the nads advice about law school that you'll ever hear. Keep in mind that the author not only teaches, but he hires law school grads as well. If you read this book, you might walk into class less prepared than your colleagues, but you'll be more confident about the one thing that really matters about law school. In this job market, you can't afford not to read this book.
